platform

LIFESTOR® dunnage rack

3-sided channel frame
(option for platform)

Dunnage Racks, Dunnage Shelves, and Platforms

- Open wire construction permits greater air circulation for ventilation in addition to reducing moisture.
- 1" (25mm)-diameter posts grooved on 1" (25mm) centers allows for the adjustment of the top shelf and the three sided frame.
- Three sided channel frame is designed for maximum weight loads.
- Top consists of four sided frame with center supports for added strength.
- Dunnage racks and dunnage shelves feature removable 5/16" (8mm)-diameter wire mat assembly that gives added support and allows for the storage of smaller items.

LIFESTOR® Dunnage Racks

- 1 1/2" (41mm)-diameter stainless steel legs.
- 1 1/4" (32mm)-diameter stainless steel crossbracing on all four sides.
- Removable shelf panels made of injection-molded high strength polymer with MICROGARD® antimicrobial protection.
- 16" (406mm) height.

MICROGARD® (for LIFESTOR® Dunnage Racks):

- MICROGARD® is an antimicrobial agent which contains built-in protection to retard the growth of a broad range of bacteria, mold and mildew on the surface of the shelves that cause stains, odors and degradation.
- MICROGARD® combines inorganic antimicrobial silver ions with a patented delivery system. The patented delivery system triggers the release of silver ions which react with bacteria in three ways: 1) suffocates the cell; 2) stops the cell reproduction system; 3) stops the cell from growing.
- MICROGARD® is a second line of defense. In keeping with good hygiene practices, always clean this product thoroughly after each use. The protection will not wash out, while organic bactericides may. Note: MICROGARD® does not protect users or others against bacteria, viruses, germs or other disease organisms.

Spec sheets available for viewing, printing or downloading from our online literature library at www.eaglegrp.com

Dunnage Racks/Dunnage Shelves/Platforms/LIFESTOR® Dunnage Racks

Maximum load rating - a static load equally distributed of 1600 lbs. (635 kg) on racks up to 36" (914mm) long, 1300 lbs. (590 kg) on 48" (1219mm) long racks and 1000 lbs. (454 kg) on 60" (1524mm) long racks.

Mobile dunnage racks - have a maximum load rating of 800 lbs. (363 kg) equally distributed on the top surface.
