Optional Accessories	Model #	Qty.
Ledges		
Dividers		
Shelf markers		
Tray slides		
Rods & tabs		
Utility drawer		

- Stem caster carts are sturdy, mobile four-shelf carts available in mirror chrome and EAGLEbrite® zinc finishes.
- Patented QuadTruss® design makes shelves up to 25% stronger and provides a retaining ledge for increased storage stability and product retention.
- Open wire construction promotes higher visibility by allowing light to pass through the shelves, permits greater air circulation which helps reduce dust and contamination build up, and increases the effectiveness of fire suppression systems.
- Posts are numbered on vertical one inch increments to help ensure fast and level assembly — shelving can be adjusted up and down every inch for optimum cart configuration.
- Fast assembly without tools: numerically calibrated grooved posts, tapered high temperature resistant plastic split sleeves and shelf collars combine to make shelving assembly a simple two-step exercise: 1)Snap the split sleeves onto the posts at the location of your choice; 2)Slide the collars of the shelf over the split sleeves. A positive lock between the shelf and the split sleeves is created without the use of any tools, becoming stronger as additional weight is added to the shelving.
- Variety of optional casters available.
